Pinehurst No. 5 Golf Course

Pinehurst and the Maples family are indelibly intertwined, and more so with this Ellis Maples design. Opened in 1961, No. 5 holds true to a key Ross feature - Mother Nature as the best guide in golf architecture. The course has more water hazards to negotiate than any other course at Pinehurst. What you'll see is a lot of variety in the layout - uphill and downhill, left-to-right and right-to-left, long and short par fours. Overall, it is a very playable, enjoyable 18 holes that will not disappoint.
